PROFESSIONAL SUMMARY

Game Developer with 4+ years of experience in game programming, software development, and cross-platform development. Proficient in C++, C#, JavaScript, and Python, with expertise in Unity3D and Unreal Engine. Experienced in real-time systems, AI programming, networking, and multiplayer development. Skilled in performance tuning, scalability, system design, and software architecture. Strong background in Agile methodologies, CI/CD, and cloud integration. Adept at leading teams, optimizing code, and applying creative problem-solving to deliver high-quality game experiences

PROFESSIONAL EXPERIENCE

Metaverse Developer

April 2024 - Present

AI Research Center - Woxsen University, Hyderabad

Developed immersive virtual environments and multiplayer systems with server integration and AWS. Integrated AI backend for dynamic gameplay, created training simulations and digital twins, and worked with AR and VR technologies. Focused on networking, performance optimization, and cross-platform development for scalable metaverse applications. Low latency optimized applications.

Game Programmer

Feb 2023 - April 2024

InuCom India Ltd - BetaFlix (US), Hyderabad

Focused on designing and optimizing game mechanics and multiplayer systems. Developed and implemented efficient code to ensure performance optimization, particularly for low-end devices. Worked on web apps to provide seamless cross-platform experiences, emphasizing game logic, multiplayer networking, and gameplay responsiveness

Game Developer

Nov 2022 - Jan 2023

Gameshastra - Hungama Games, Hyderabad

Specialized in game design and the development of core gameplay mechanics. Led the creation and optimization of game architecture, ensuring scalable, maintainable, and high-performance systems. Focused on data management to efficiently handle game data and optimize overall performance, ensuring smooth gameplay across platforms. Enhanced game mechanics for seamless player experience and long-term playability

Associate Eng. QA

Aug 2020 - Sept 2021

Zensoft Services Pvt. Ltd, Pune

Conducted comprehensive bug tracking, debugging, and performance testing to enhance stability and functionality. Collaborated with development teams to identify and resolve issues related to design and data management ensuring a seamless and optimized experience. Focused on maintaining high quality standards throughout the development lifecycle.

Qualitia Software

Jan 2020 - March 2020

Software Intern

Assisted in developing and testing software solutions, focusing on coding, debugging, and optimizing features. Collaborated with senior developers to support project tasks and improve system functionality.

Horizon Electro

Jul 2019 - Aug 2019

Student Intern

PCB Fabrication, Module Assembly
Packaging

PROGRAMMING

- C++
- JavaScript
- C#
- HLSL / GLSL
- OpenGL
- Python

GAME ENGINE

- Unity 3D
- Unreal Engine
- Three JS

TOOLS/Framework

- NextJS
- AR CORE
- Photon
- ThreeJS
- AR KIT
- Ads
- React
- VR Toolkit
- Monetize

AI/ML

- Hugging Face
- Kaggle
- Sentis

EDUCATION

B.TECH / B.E - EnTc Engineer	2016 - 2020
Pune University - Sinhgad College	
Game Design and Development Specialization	2021
Coursera - Michigan State University, US	
PG Diploma in Game Design And Development	2021 - 2023
BackstagePass - Lincoln University College, Malaysia	

PROJECTS

Fierce Racing

Time Trial system, Ghost system, user data

2D Line Puzzle

Draw line to solve puzzles

Immersive 3D Plane Sim

Capture the enemy in a dogfight in sky
